SUBJECT the Contract for a New World
FROM Jack Hastings
Representative, Pennsylvania
TO All General Media

It is with great pleasure that the Office of the Speaker of the House, headed by Representative Jack Hastings, three-term representative of the great state of Pennsylvania, announces his “Contract for a New World”.

- Years in the making, months in the writing, this contract lays the map for the new American ethic.
- As guided by the strong moral compass of Congressman Hastings, it hopes to inspire new action on the following tiers:
 - Increased environmental awareness and regulation
 - Mandatory government funding for research into renewable energy sources and new technologies
 - Aggressive literacy goals through the “No Weak Link” program
 - Re-energized Space Program to expand our galactic horizons
 - Progressive new methods to deal with overpopulation in Third World Countries

Full text of the “Contract for the New World” will be made immediately available in both print and on the internet. The Congressman will be holding a press conference from his office to field questions and talk in depth about his bold, new, patriotic policies.

Together, we can effect change that will build a greater tomorrow – today.
